Bus Booking Web Application

GitHub | Live Demo

Engineered a full-stack Bus Booking System supporting **50+ buses** and **500+ daily users**; implemented real-time seat selection, PDF ticket generation, automated email notifications, and an admin dashboard managing **1000+ bookings**, increasing booking efficiency and user satisfaction by 40%.

Python,NLP,
PHP,MySQL

Grammar Correction Tool

GitHub | Live Demo

Constructed a grammar correction system using **T5 transformer**, POS tagging, and Flask API; achieved **95% accuracy** on 500+ test cases, added speech output, and enabled user history logging for enhanced accessibility.

PHP,MySQL,
HTML,CSS,JS

Online Book Store

GitHub | Live Demo

Built a full-stack e-commerce platform with secure login, database-driven book categories, and interactive shopping cart; integrated UPI payment gateway and real-time order tracking to streamline user transactions.

Python,OpenCV,
NumPy

Underwater Image Enhancement

GitHub

Optimized contrast of 200+ underwater images by 35% using CLAHE and Simplest Color Balance; evaluated results with PSNR, SSIM, and UCIQE metrics, delivering measurable improvements in visual clarity.

EDUCATION

2022 – 2026

B.Tech – CSE (AI & ML), CGPA: 9.12

RVR & JC College of Engineering, Guntur

Specialized in Artificial Intelligence & Machine Learning, with a strong foundation in data structures, algorithms, and software development.

2023 – 2026

Honor Degree in Full Stack Web Development, CGPA: 9.0

RVR & JC College of Engineering, Guntur

Gained expertise in html,css,javascript,ASP.NET Core,.NET Framework, database management (SQL, MYSQL).

2020 – 2022

Intermediate (MPC) – 97.4%

Sri Chaitanya Junior College,Srikakulam

2019 – 2020

SSC – 9.7 CGPA

A.P Model School,Edulavalasa

INTERNSHIPS

NITW (Offline)

Intern – ML & Image Processing

May 2025 – Jul 2025

Researched underwater image enhancement using CLAHE and Simplest Color Balance; presented findings to faculty and documented results.

Technohacks
Edutech (Online)

GUI Developer (Remote)

May 2024 – Jun 2024

Created desktop applications using Tkinter (calculator, file tools, notepad) to demonstrate GUI functionality in Python.

CERTIFICATIONS

- Introduction to Natural Language Processing – Great Learning – 2024
- Wipro Talent-Next Program: C# (.Net) Full Stack – 2024
- AWS Cloud Fundamentals – Amazon – 2024

ACHIEVEMENTS

- Maintained a CGPA above 9.0 in B.Tech CSE (AI & ML)
- Completed ML and image processing internship at NIT Warangal
- Designed and launched a full-stack Bus Booking System with real-time seat selection and PDF ticket generation, reducing booking time by 40%.
- Solved over 150 coding problems on LeetCode and HackerRank
- Scored 87% in Machine Learning for Soil and Crop Management certification
- Presented projects to mentors and peers
- Selected for district-level volleyball trials (Andhra Pradesh U-17)
